Lightning struck a large tree behind a house on Hyde Ct. in the Pleasant Valley area of Little Rock. The lightning traveled down the tree and into the house, setting it on fire.				
A low pressure center tracked across Arkansas on the 1st, taking a path from near Texarkana to the Missouri Bootheel. In the colder air to the northwest of the low, freezing rain and sleet occurred, then precipitation changed over to light snow. In the warmer air to the southeast of the low, widespread rain and thunderstorms occurred. After the low moved by, much colder Arctic air rushed across the state, accompanied by strong winds. Wind gusts between 30 and 45 mph were common. The winds brought down tree limbs and power

## Storm Data and Unusual Weather Phenomena - February 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
(AR-Z003) BOONE, (AR-Z004) MARION, (AR-Z005) BAXTER, (AR-Z006) FULTON, (AR-Z012) NEWTON, (AR-Z013) SEARCY, (AR-Z015) IZARD				
	02/04/11 11:00 CST		0	Heavy Snow
	02/05/11 06:00 CST		0	

A low pressure system tracked across Arkansas on the 4th and early on the 5th. Heavy snow fell over parts of western and northern Arkansas, where snow accumulations of 4 to 6 inches occurred. Totals in most other sections of the state were in the 1 to 3 inch range. As slightly warmer air aloft moved in during the day of the 4th, snow changed over to freezing rain and sleet over southern Arkansas and much of the central part of the state. On the night of the 4th, most precipitation became snow flurries or freezing drizzle and this precipitation continued into the morning of the 5th. Two single fatality accidents occurred on snowy roads on the 4th. A 49 year-old man was killed on U.S. Highway 71 just south of Cove in Polk County and a 72 year-old woman lost her life on Arkansas Highway 5 on the north side of Cabot in Lonoke County. On the 5th, a 35 year-old man was killed on icy Interstate 30 southwest of Benton in Saline County.

*Roughly four inches of snow accumulated around Russellville (Pope County) on February 4th. The photo is courtesy of Kevin Wolfe.*

WOODRUFF COUNTY --- PATTERSON [35.25, -91.23], 0.4 SSW RIVERSIDE [35.27, -91.23], 0.9 SW RIVERSIDE [35.27, -91.24], 0.2 N CAVELL [35.25, -91.25]	02/06/11 06:00 CST	0	Flood (due to Heavy Rain / Snow Melt)
	02/10/11 03:00 CST	0	Source: River/Stream Gage

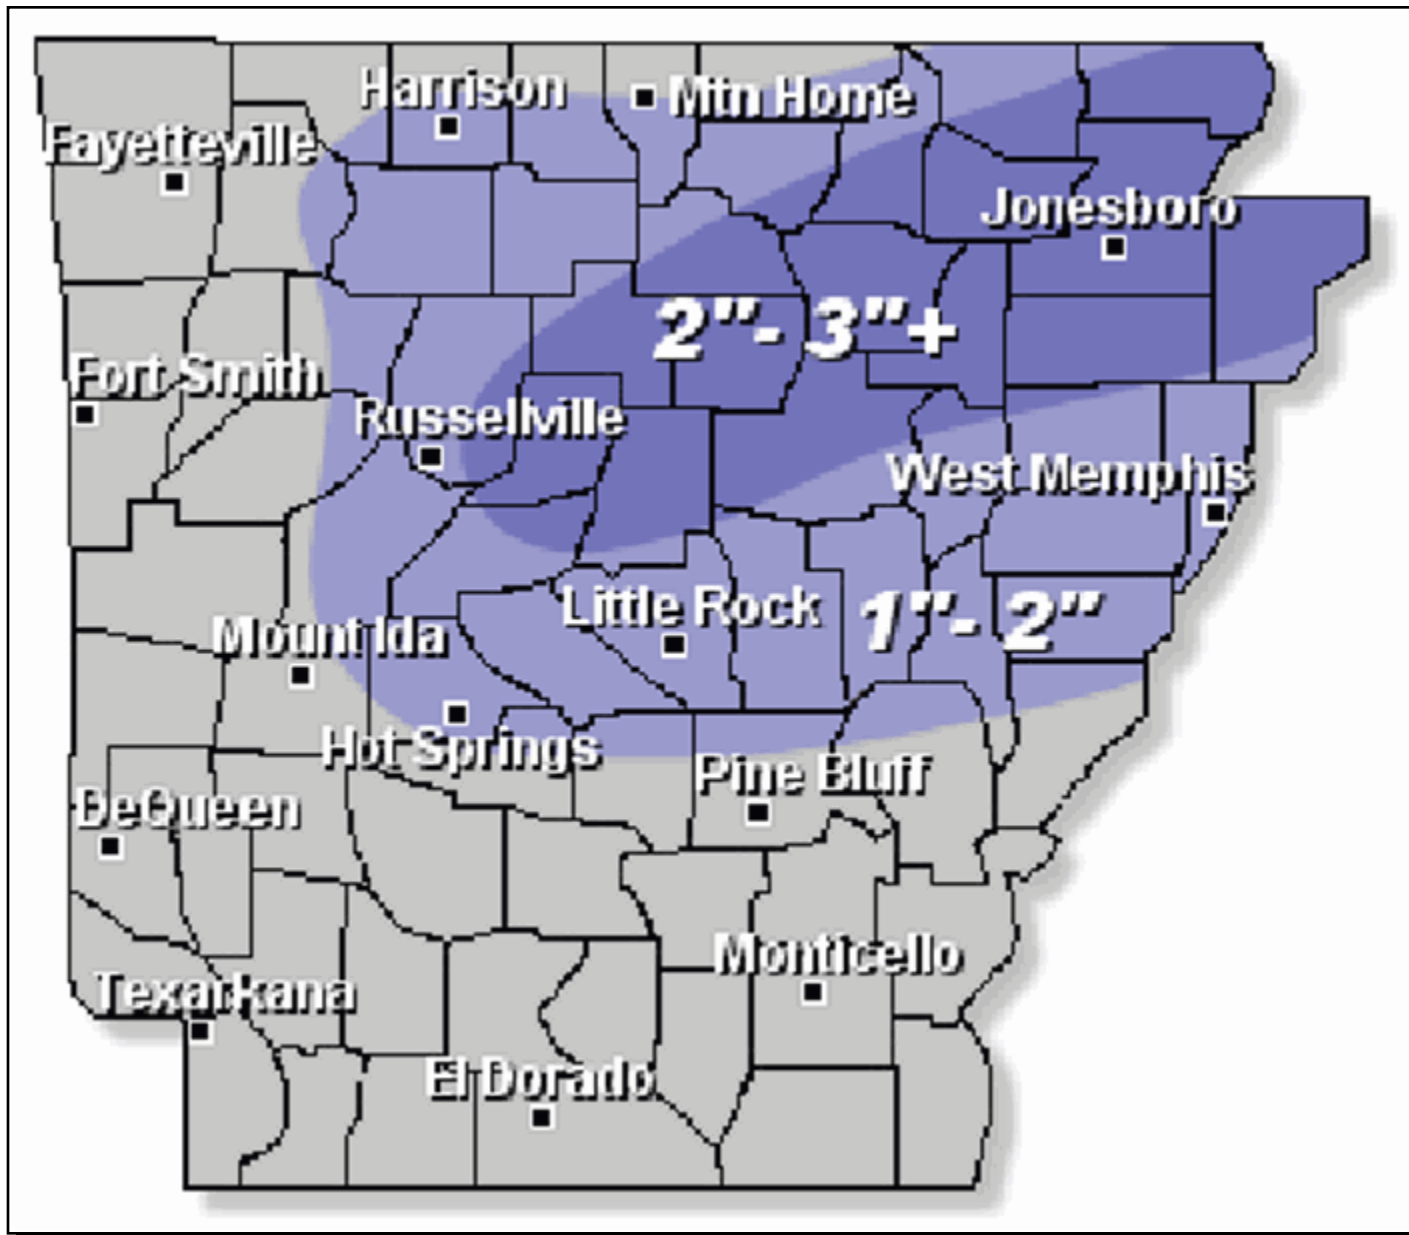

The Cache River rose slightly above flood stage.

Heavy rainfall and melting snow pack caused the Cache River to rise above flood stage in early February.

## Storm Data and Unusual Weather Phenomena - February 2011

	02/07/11 11:00 CST	0		

Rain fell over Arkansas on the 6th. During the night of the 6th and the morning of the 7th, colder air spread across the state, changing the precipitation to snow. The snow exited the area around midday on the 7th. Most snowfall amounts were in the range of 1 to 2 inches, but there were spotty 3 inch amounts, especially from Greers Ferry Lake to Mountain View and Batesville.

*Snow fell across much of northern and northeast sections of the state on the night of the 6th and the morning of the 7th, with the heaviest snow falling along a line from Russellville to Newport. Graphic by John Lewis, Senior Forecaster, WFO Little Rock.*

A low pressure system tracking to the south of Arkansas combined its moisture with cold air over the state to produce widespread heavy snow. In the Little Rock County Warning Area, the largest snow totals were in Newton County, where accumulations reached as high as 20 inches. Amounts tapered off farther to the east and south in Arkansas. Nevertheless, most accumulations ranged from 4 to 12 inches. The smallest totals were in the south, where accumulations were in the 2 to 4 inch range. State and federal offices were closed in the Little Rock area on the 9th and 10th, as were almost all the schools in the Little Rock County Warning Area. Some schools were still closed on the 11th. Hundreds of traffic accidents occurred. Three traffic fatalities occurred on the morning of the 9th. A 57 year-old woman was killed in an accident on Interstate 40 near Kerr in Lonoke County. A 23 year-old woman and her 1 year-old son were killed in an accident on Interstate 40 near Brinkley in Monroe County.

*More than a foot of snow piled up around Jasper (Newton County) on February 9th, and most of it fell in only three hours. The photo is courtesy of Jane Martin.*

<b>DREW COUNTY --- MONTICELLO [33.63, -91.80]</b>				
	02/24/11 18:35 CST		20K	Thunderstorm Wind (EG 52 kt)
	02/24/11 18:35 CST		0	Source: Law Enforcement
Trees were blown down in and around Monticello.				
<b>DESHA COUNTY --- MC GEHEE [33.63, -91.40]</b>				
	02/24/11 19:00 CST		5K	Thunderstorm Wind (EG 52 kt)
	02/24/11 19:00 CST		0	Source: Law Enforcement
Road signs were blown down.				
Low pressure aloft, approaching from the west, caused a line of thunderstorms to develop during the afternoon. The line moved very quickly, exiting the area during the early evening. The fast movement of the line, occasional bowing sections within the line, and winds aloft were favorable for severe thunderstorms producing wind damage. Isolated tornadoes developed near the line.				

## Storm Data and Unusual Weather Phenomena - February 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
